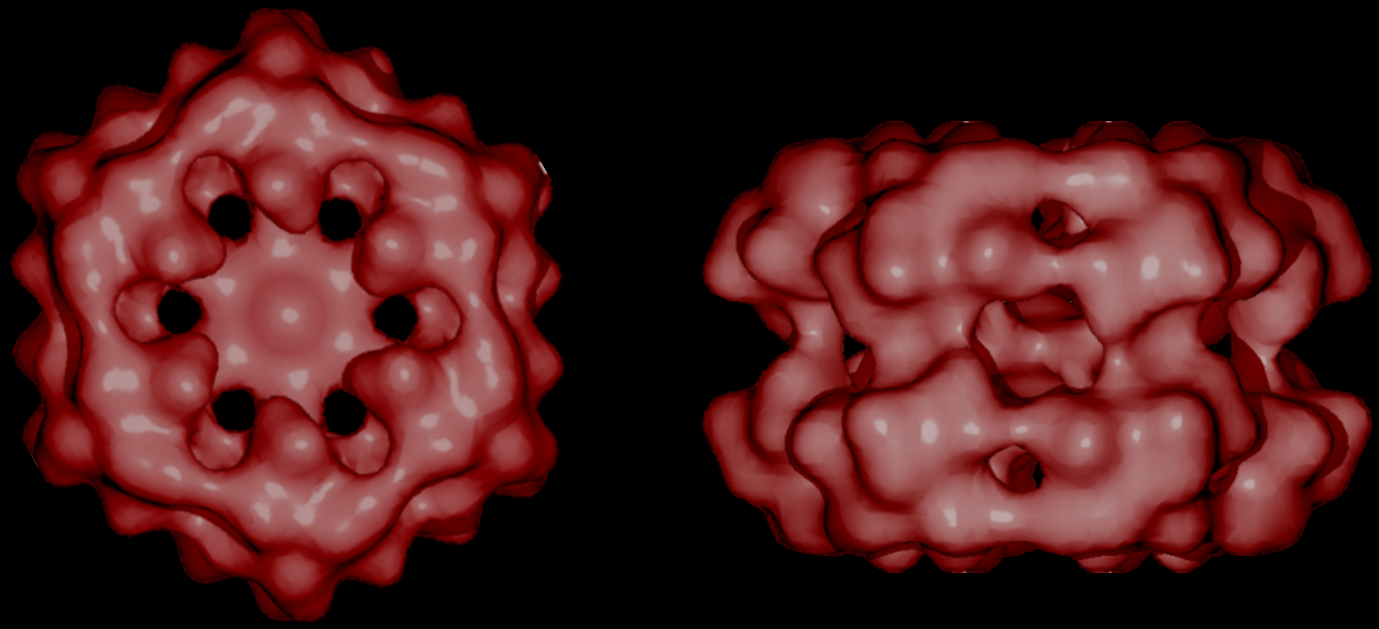
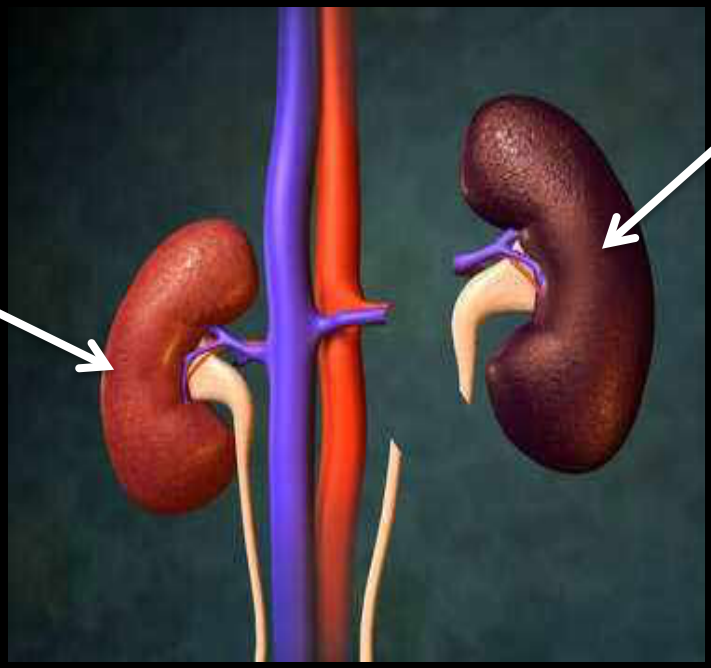
CEO HEMARINA

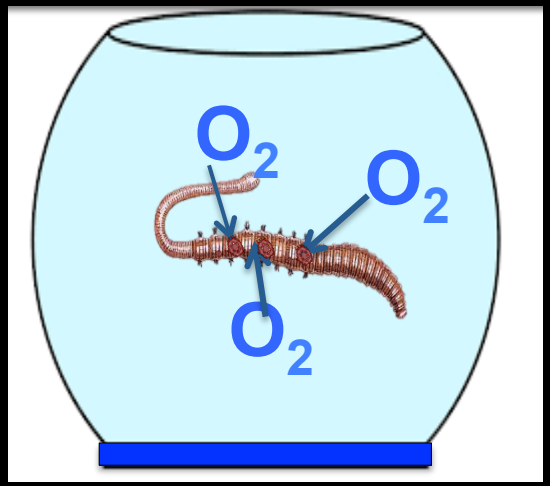


B7

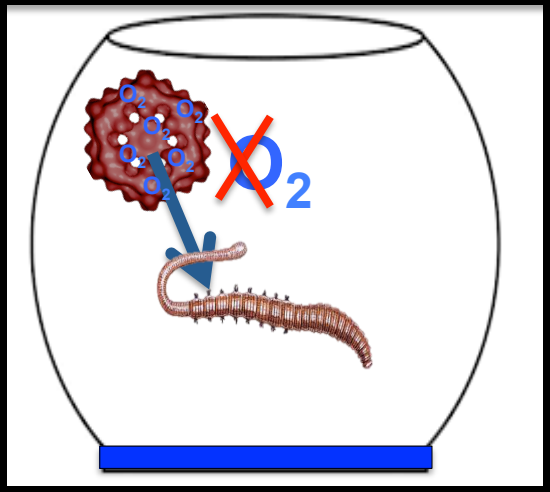
HEMO2life® un produit Bio-inspiré pour la conservation des greffons



Marée haute



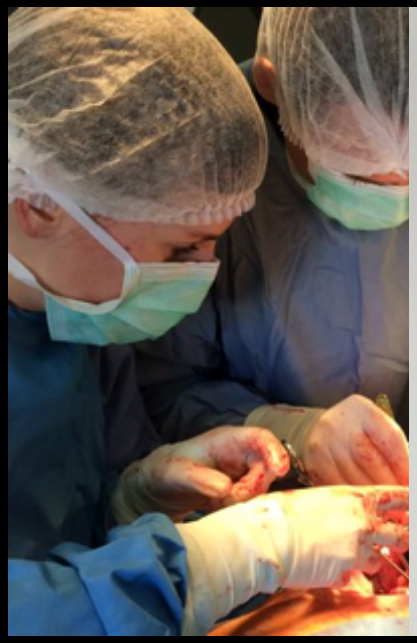
Marée basse

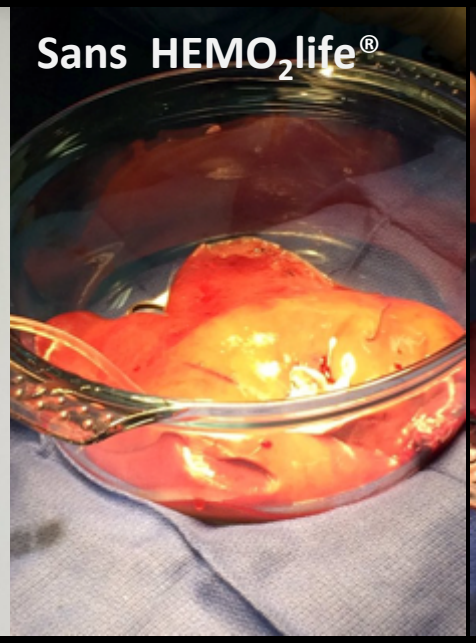


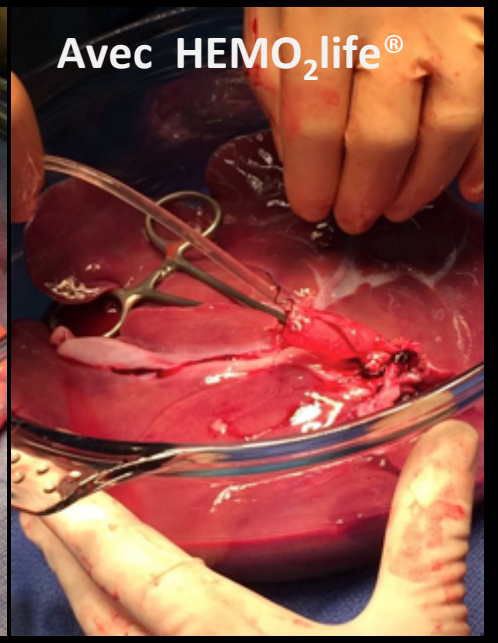
Cold storage

Transplantation

Greffe Hépatique

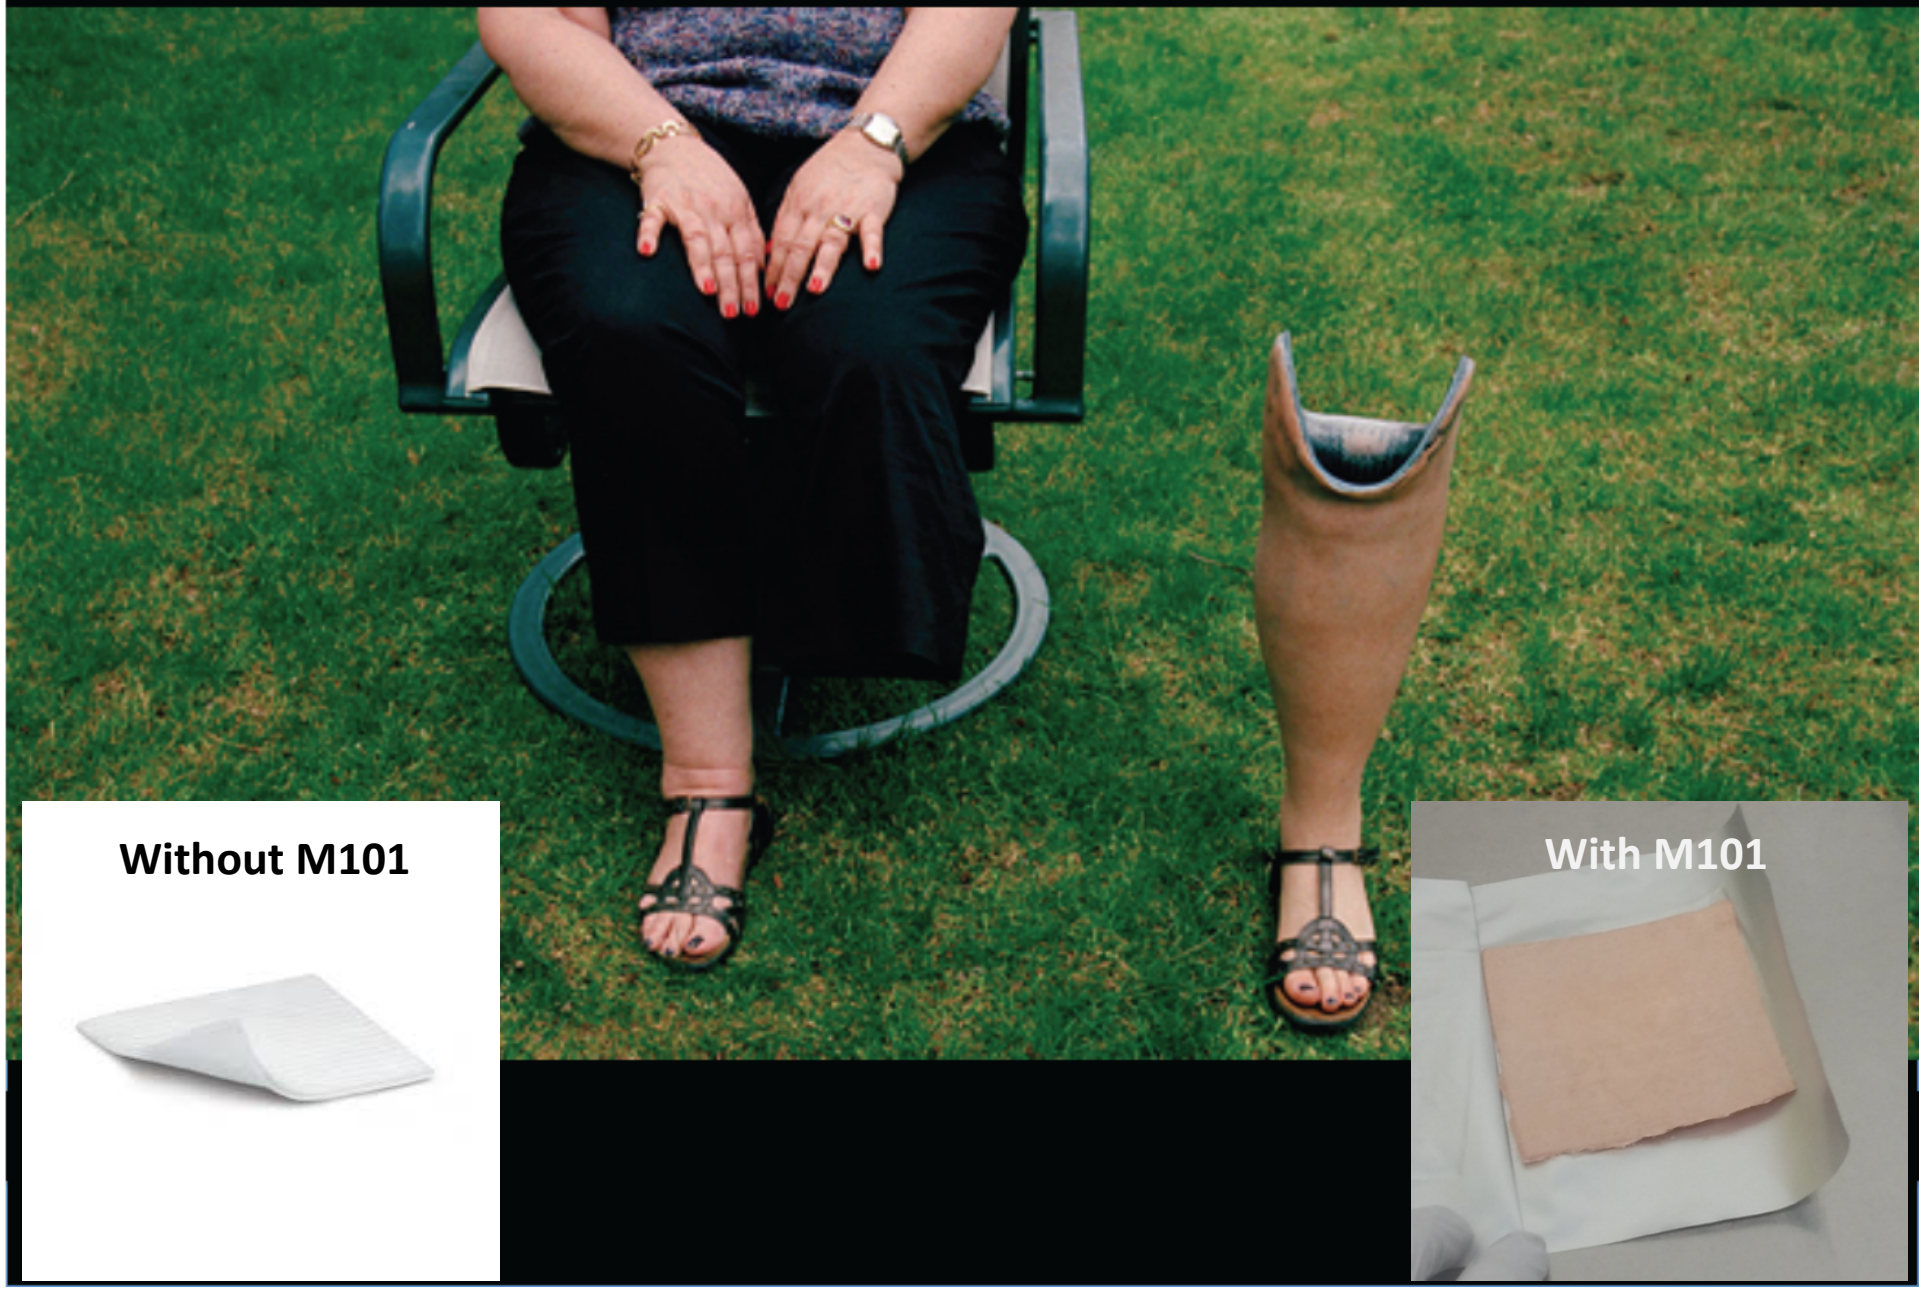






Greffe de la Face

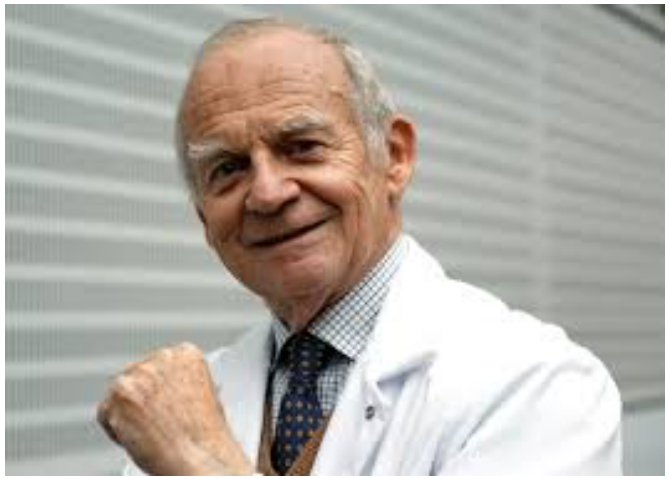
Cicatrisation - Diabète



Without M101

With M101

Transfusion - Drépanocytose



« Il y aura eu deux événements majeurs dans le domaine de la greffe d'organes : Les immuno-suppresseurs qui nous ont permis de transplanter et HEMO2Life, votre innovation, qui va nous donner du temps et des organes de meilleur qualité »

Pr. Alain Carpentier

« HEMO2Life est une innovation, une révolution médicale et le futur de la transplantation»

Pr. Laurent Lantieri
